National Survey Methodology

This nationwide online survey was conducted by Zogby Analytics on behalf of Research!America in January 2018, among 1,013 adults in the U.S. This survey has a theoretical sampling error of +/- 3.1 percentage points.*

This nationwide online survey was conducted by Zogby Analytics on behalf of Research!America in January 2017, among 1,005 adults ages 18+. This survey has a theoretical sampling error of +/- 3.1 percentage points.*

*Due to rounding, the total may not add up to 100 on some slides
Federal Government Should Fund Research on Health Disparities

How important is it for the federal government to fund research on social determinants of health (education, housing, income, access to healthy food and healthcare) to address health disparities?

Source: A Research!America survey of U.S. adults conducted in partnership with Zogby Analytics in January 2018.
Important to Conduct Research to Eliminate Health Disparities

Studies show that certain health problems such as diabetes, heart disease, and infant mortality happen more often among minorities or citizens with lower incomes. How important do you feel it is to conduct medical or health research to understand and eliminate these differences?
