

THREE-MINUTE ADVOCACY

Call or Email Your Local Chamber of Commerce

01

Check [here](#) to see if your chamber of commerce is part of [Business for Federal Research Funding](#).

02

If your chamber of commerce isn't part of the coalition, call or email [your local chamber](#) and ask them to join!

03

Use this template as a starting point:

"I live in (town/city). I am connecting to ask you to join the Business for Federal Research Funding. It is a nationwide coalition of 80+ chambers of commerce that are advocating for robust federal research funding. At the end of the day, federally funded research can create so much potential for any economy. It would be a mistake for research dollars that are already entering our state to go away. [If you have an example of how research relates to your local economy, share it here.] Thanks so much for considering this request!"

04

If you would like assistance in interacting with your local chamber, please contact jlagoy@researchamerica.org
